CARGO PROTECTION

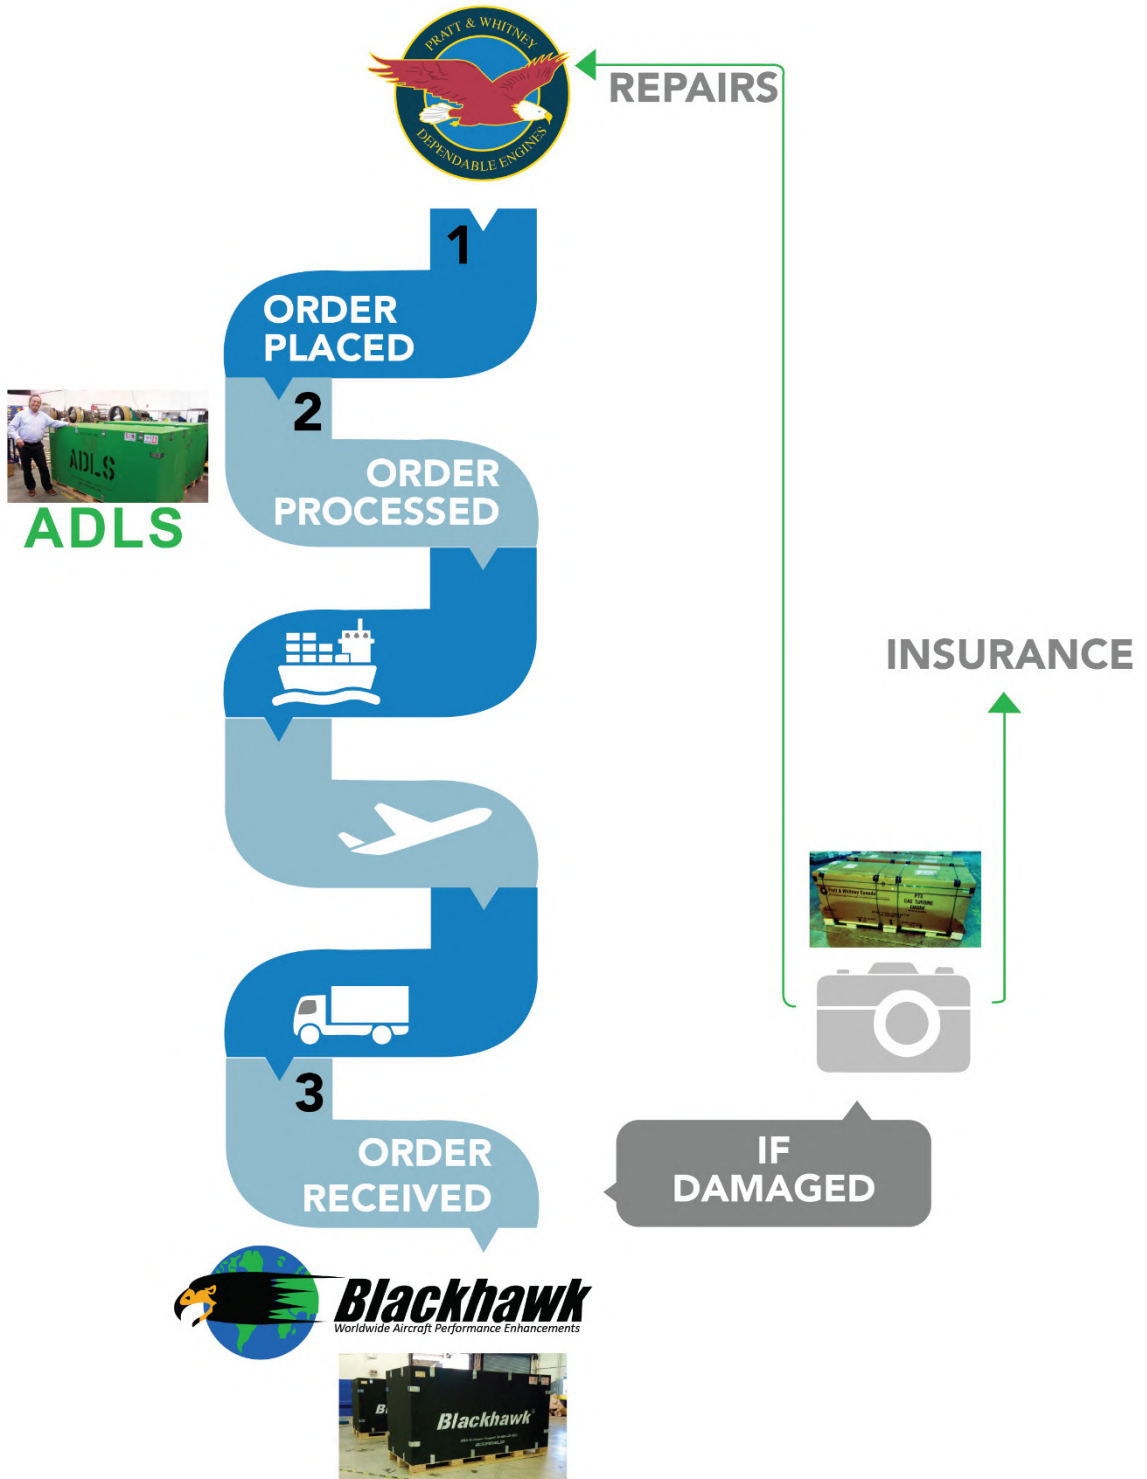

Unprotected cargo is often damaged during transport. ADLS cargo protection minimizes damage of expensive machinery and equipment.

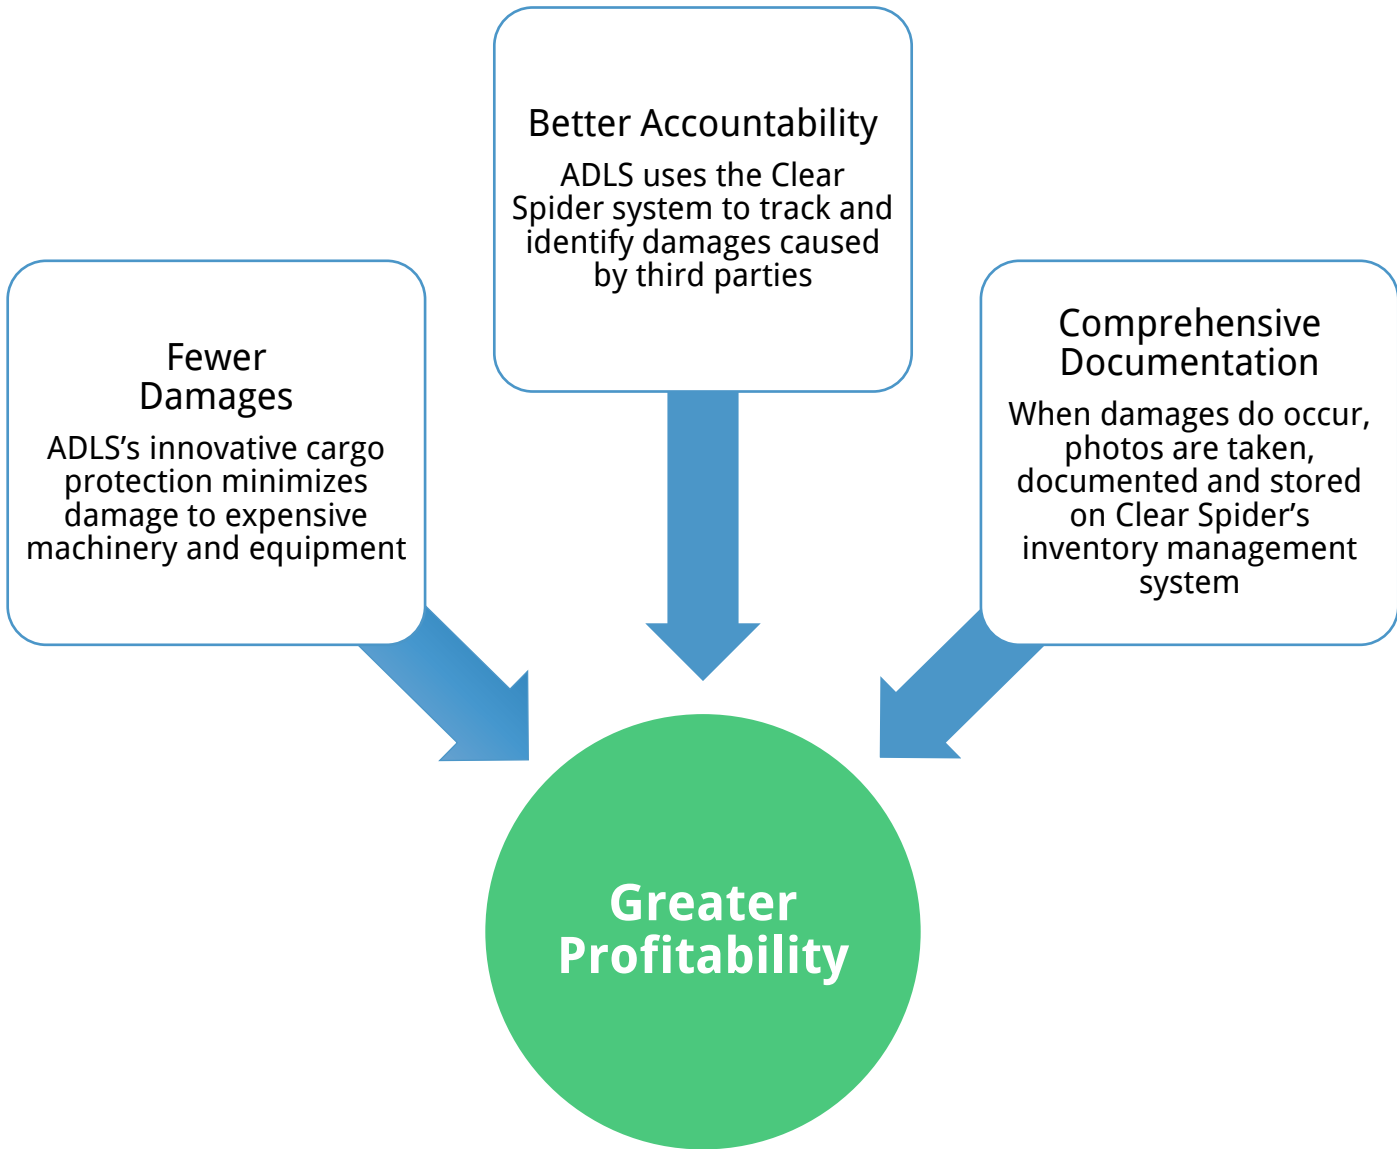

When damage does take place, ADLS's use of the Clear Spider inventory tracking system pinpoints where the damage occurred and documents the extent of the damage for review and insurance claims processes.

SHIPMENT PROCESS FLOW

BENEFITS

ADLS's cargo protection services and inventory tracking technology saves Blackhawk Modifications, Inc. over \$100,000/year in insurance premiums.

At Clear Spider, we look forward to helping your organization track inventory better and with ease.

We invite you to explore our website and also set up a meeting with us. In the discussion, we will:

- Give you feedback on your organization's current state of inventory management
- Show you the Clear Spider system and how it can help improve your operations
- Answer your questions answered and provide you with pricing information

We would be happy to share with you some invaluable tips that can cut your organization's operating costs and make it more competitive than ever.
